

## **Media Contact List—Community Tool Kit**

---

This media contact list is sorted by county and was created from a media contact database in November 2005. Some of these contacts may no longer be accurate as reporters change positions frequently. Before sending something out to media, it is a good idea to call and double check you have the most accurate contact details. In addition, this list is not all-inclusive. There may be other media outlets in your community that are not listed, such as cable stations, community weeklies or newsletters, etc.
